EDUCATION

Master of Computer Applications (MCA) MIT World Peace University, Pune CGPA: 8.56 / 10.00	Aug 2024 – Jul 2026
Bachelor of Computer Applications (BCA) Patna University, Bihar CGPA: 9.29 / 10.00	Sep 2021 – May 2024
Intermediate (CBSE) St. Lawrence Academy, Bihar Percentage: 88.6%	April 2018 – May 2020
Matriculation (CBSE) Gyan Jyoti Residential Public School, Bihar Percentage: 85.8%	April 2016 – March 2018

PROJECTS

<u>Interview.AI</u> <i>Next.js · FastAPI · GPT-4 · Whisper · MediaPipe · MongoDB</i>	Dec 2025
- Built an AI-powered mock interview platform conducting realistic, role-specific interviews via voice, video, and text modalities, enabling candidates to practice under real-world conditions at scale. Integrated OpenAI Whisper for speech-to-text transcription, GPT-4 for NLP-driven answer evaluation, and MediaPipe with OpenCV for real-time computer vision analysis of facial expressions, posture, and eye contact. - Engineered a multi-dimensional scoring engine evaluating 7+ verbal and non-verbal parameters (fluency, tone, confidence, clarity) and generating structured post-interview feedback reports via a FastAPI backend with JWT authentication.	
<u>CypherStack</u> <i>Java · AES-256 · MySQL · IDS · Webcam Geolocation</i>	Dec 2024
- Developed a file encryption solution using AES-256, enabling secure file conversion to a proprietary .cyp format with minimal processing overhead. - Built a real-time intrusion detection system that records webcam snapshots, IP geolocation, and timestamps on suspicious login activity; managed 500+ user credentials and audit logs in MySQL.	
<u>HireArchy</u> <i>Java · JSP/Servlets · MySQL · Apache Tomcat · Bootstrap</i>	May 2025
- Architected a role-based job portal (Admin/Employer/Applicant) with JWT auth, RBAC, and a built-in Skill Sense ATS featuring JD-relevance scoring and a Resume Optimizer for skill-gap analysis. - Managed a MySQL schema supporting 200+ active job postings and 1,000+ application records with integrity constraints and audit trail mechanisms aligned to IT governance standards.	

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Frameworks & Libraries: FastAPI, Flask, Next.js, React, Tailwind CSS

Security: AES-256 Encryption, Intrusion Detection Systems, RBAC, JWT Authentication

Tools & Platforms: Git, GitHub, Apache Tomcat, Linux

Core Computer Science: DSA, Object-Oriented Programming (OOP), RDBMS, OS, Computer Networks

CERTIFICATIONS

<u>Foundations of AI and Machine Learning</u> — Microsoft · Coursera	Nov 2025
<u>Complete Linux Training Course</u> — Packt · Coursera (3-Course Specialization)	Apr 2026

ACHIEVEMENTS

<u>Appreciation Prize — Hack MIT-WPU'25 Ideathon</u> · MIT World Peace University, Pune	March 2025
Conceptualized SecuScan, an AI-powered proactive security scanner for real-time threat detection and prevention, recognized among 14 innovation tracks at the college-level Ideathon.
